

Movers & Shakers don't tell you what to drink at your party, you decide with some advice from us. This may seem a little lazy on our part but we have made it as easy as possible for you to create the perfect drinks menu for your guests. This will take a little time and effort but the end result will be a bespoke menu for your event.

These are the points to consider:

A Varied Choice of Drinks

Sounds obvious but not everyone like cocktails so give your guest a choice.

Varied Cocktails

Cocktail parties are fun, but choosing eight tequila based cocktails might ruin someone night

Your Guests

This is most important, by knowing your guests you will make better decisions about what drinks to add to your list and how much stock you should buy. Ask yourself questions like: do you have any children coming? are all your friends driving? Does someone important like a particular beer? Are they all heavy drinkers?

Running Out of Stock

A mobile bar works different to a static bar in that we cannot stock everything all the time and we do run out of items on the menu. When this happens our trained staff will guide your guest to another option.

Supplying Stock

Mover & Shakers will happily write you a shopping list so you can source your own alcohol - however we are also happy to supply anything or everything. At the end of the event all the stock is yours

Now with that in mind we have a 'Drinks Menu Guideline Sheet' for you to fill in. Please keep in mind we will serve any drink and any combination you desire.

Description	Name	Amount/Cost
Cocktail One		
Cocktail Two
